

Product Series: boline H

Features:

- Possess stable cutting performance;
- Cutting speed is improved by more than 15% when compared with ordinary copper wires;
- Widely applied in machining of high precision tools and components

Technical Specification:

Product	Core Material	Coating material	Tensile strength	Elongation	Auto-threading
boline H	CuZn36	Special layer	900MPa	1%	yes
φ(mm)	0.15	0.20	0.25	0.30
